Indonesian, English, Javanese

PROFILE

I am a React Native and React Js developer with 3 years of experience. I'm used to work with Backend Developers and UI/UX designers in building online mobile apps from scratch until production and maintenance. I'm familiar with RESTFUL API, Github and Gitlab, also slicing design from Figma and Zeplin.

FULL-TIME WORK EXPERIENCE

React Native Developer
Integra Teknologi Solusi

- Developed On-Premise app from scratch until production.
- Developed SaaS application, published it to Google Play Store and maintained it.

React Js Developer
Integra Teknologi Solusi

- Developed SaaS website from scratch using Semantic UI library.

FREELANCING WORK EXPERIENCE

Restaurant App	Developing a seat and food reservation app for customer, and cashier app for management.
Money Transferring App	Developing the UI of a Pakistan-based financial app for transferring money and financial planning.
Lesin Aja Mobile and Web (React Native and React Js)	Developing a platform to aggregate students and soon-to-be tutors and facilitate them with features such as scheedule, marks, notes, nearby search. The app has roles of Admin, Parent, and Tutor.

PERSONAL SKILLS

1. Essay Writing (1st winner of national essay competition in high school).
2. Public Speaking (I have experience as a webinar speaker).
3. Presentation Design (Prezi, Power Point/Google Slide)
